

IMPORTANT

Alternate Routes to Loomis Basin Veterinary Clinic During Sierra College Blvd. Road Closures Approximately February 6 - 20

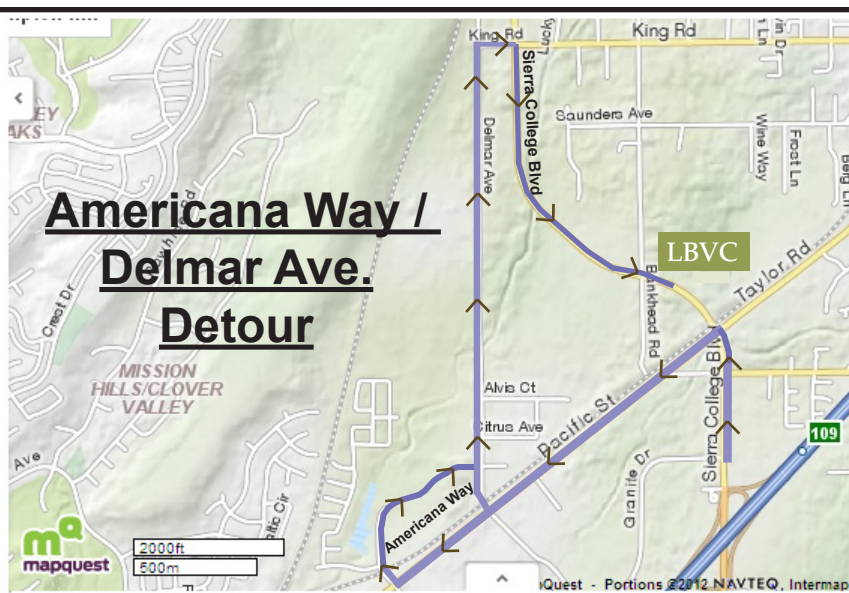

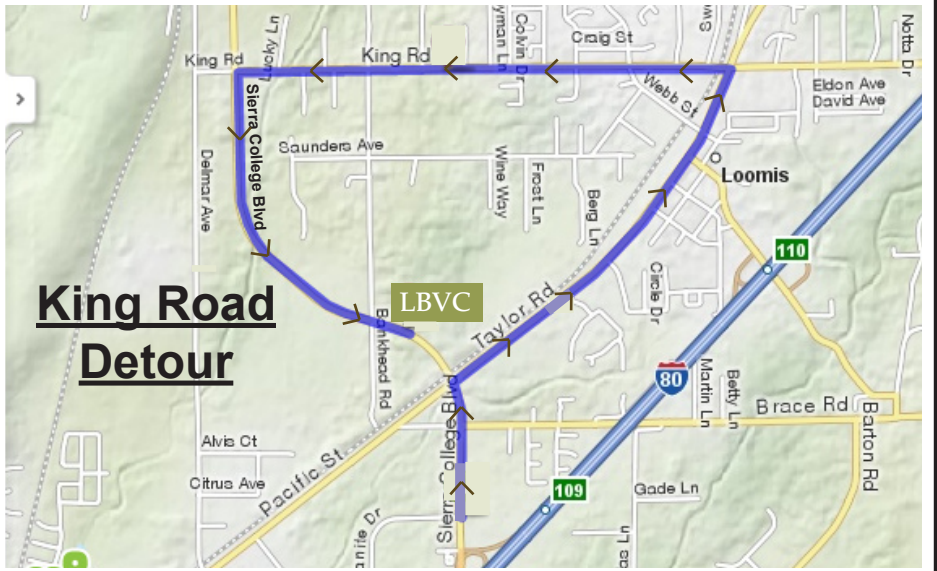

Sierra College Blvd road closures will intermittently occur between February 6 - 20. This will require a detour route to get to Loomis Basin Veterinary Clinic. The road closures are due to work on the railroad tracks and will impact crossings east and west of Sierra College Blvd as well.

In order to help our clients navigate these road closures, we have provided maps with alternate routes to the clinic (see below). When Sierra College Blvd is closed at least one of these detour routes will be open and traffic will be directed at Taylor Road.

If you have any questions please do not hesitate to call our client services at (916) 652-5816. We will do our best to minimize any inconvenience to you and accommodate any delays you may have in arriving for your scheduled appointment.
